A Personal Statement of Goals in Fulfillment
Of the Requirements for the Application to the
Doctoral of Nursing Practice Program

Charles Drew University of Medicine and Science

Mervyn M Dymally College of Nursing

Los Angeles, California

Date

Introduction

In about 100-200 words, describe what motivated you to earn a doctoral degree in nursing practice. As a doctoral student in nursing practice, include statements on the future impact on your nursing practice.

Potential Quality Improvement Project

In about 200-300 words, indicate the potential quality improvement project (QIP) you intend to develop that focuses on change that influences health care outcomes. Indicate the reason/problem you see in your healthcare organization that convince you to develop this potential improvement project. Quality improvement project in the Doctoral Nursing Practice (DNP) program conveys students the chance to methodically implement and translate the strongest evidenced based research in to their practice (Davis, et al., 2021).

Potential Clinical Site and Mentor

In about 100-200 words, indicate your potential clinical site/s that you plan to develop and implement your QIP. Indicate if your QIP aligns with the 5-year organizational goal of the institution that you plan to implement the project. Discuss your current role in this clinical site including the practice/institution name, city, state and zip code. Discuss two areas where you would like to see improvement. Indicate a potential mentor who is willing to help you in this DNP journey.

Summary/Conclusion

Summarized your personal goal statement and indicate your strongest assets/characteristic that you think will help you in your QIP and DNP journey.
