

## SSA II Student Oath

I, as a student of Charles R. Drew University's Saturday Science Academy II, promise by this oath that I shall treasure what I have learned in this program and continue my quest to higher education.

Despite the obstacles that I may face in the future, I shall recognize that I have the power to overcome them and become a better person and to show appreciation to those who have taught me.

I shall accept the responsibility to teach others and to share my knowledge with everyone. I shall uphold these values to the best of my ability.
