

SSA II Teacher Oath

I, as a teacher of Charles R. Drew University's Saturday Science Academy II, promise by this oath that I shall educate and inspire the next generation of professionals to pursue a career in STEMM and to combat health disparities.

Despite the obstacles that our scholars may face, I pledge to cultivate a safe environment for our students so that they feel welcomed and recognized. I will create and maintain an equitable learning environment for all scholars.

While I work to motivate and mentor our students towards a career in STEMM, more importantly I instill confidence, leadership skills, and a love for learning to assist them in future endeavors. I pledge to motivate, stimulate, and educate a culturally diverse student population.

I shall uphold these values to the best of my ability.
