Program Goals and Student Learning Outcomes
“We are the eyes of medicine”**

Goal #1: Graduate students who will be clinically competent.

Student Learning Outcomes:

- Students will apply accurate positioning skills.
- Students will select appropriate technical factors.
- Students will use appropriate radiation protection measures.

Goal #2: Graduate students who will be able to demonstrate communication skills.

Student Learning Outcomes:

- Students will demonstrate oral communications skills.
- Students will demonstrate written communication skills.

Goal #3: Graduate students who will demonstrate problem solving and critical thinking skills.

Student Learning Outcomes:

- Students will successfully complete all laboratory experiments.
- Students will adapt to non-routine positioning situations.

Goal #4: Graduate students who are ethical and professional.

Student Learning Outcomes:

- Graduates will demonstrate professionalism upon employment.
- Students will learn how to protect patient information.
- Students will develop a professional portfolio.
